### CDTV – Blowdown Work on the Beech Bottom/Jacks River Trails

As many of you know, the north half of the wilderness was hit by a major storm and flood event this summer, forcing temporary closure of several trails in that part of the wilderness. CDTV moved it's regularly scheduled workday from late September to September 1<sup>st</sup> so that we could work on clearly blow downs from portions of the Beech Bottom and Jacks River Trails. Larry Thomas, John Franetic, David Kuykendall, Matt Liptak, Darrell Norris, Jon Larimer, Jim Leatherwood, Eric Pierce, Wanda Brown, Charles McCullough, Conrad Easley, Adam White, Charles Smelter, David Tanner, and Jensen Tanner left the Beech Bottom trailhead and into the wilderness to clear those trails. While there is still much more work to be done, the group accomplished a lot, clearing the trails through the affected areas of Beech Bottom and on to the falls.

Many thanks to all our volunteers who worked hard to clear these areas. We hope to see many of you on another workday in the near future.

Volunteers about to embark on the workday.

Cross-cut work.

Cross-cut work.

And MORE cross-cut work!
